Dragons Den in the Grade 7/8 Classroom

This week, our Grade 7/8 classroom turned into a “Dragon’s Den” as students pitched their business plans to a panel of volunteer "Dragons." After each presentation, the Dragons shared valuable feedback on product ideas, pricing, and overall feasibility, helping students prepare for our upcoming school market day sale. Through their insights, the Dragons guided students in refining their plans and gaining a deeper understanding of what it takes to bring a business concept to life. It was an engaging, hands-on learning experience for everyone involved!

GRADE 5/6 DESIGN A MOON BUGGY

For a Grade 5/6 ADST project, students designed and built their own unique moon buggies! This engaging, hands-on activity ignited their curiosity about space exploration while promoting creativity. Using materials like cardboard, wheels, and axles, students learned about stability and durability — and were encouraged to add their own personal flair to each design. The result was a diverse fleet of moon buggies, each reflecting the individuality and imagination of its creator!
